

Rolling Hills **PERCHERONS**

Percherons are among the largest and most majestic horses on Earth. These black beauties outshine all other draft horses!

Jeremy Hancock's great grandfather brought his first pair of registered Percherons to Rolling Hills Farm in 1938. The family tradition continues as today's team of six Rolling Hills Percherons is widely known for winning national championships across the country. Whether taking individual honors, or winning the blue ribbon for cart or hitch competitions, the powerful Rolling Hills Percherons are a truly unforgettable sight!

The Rolling Hills Percheron transport rigs are seen by millions of people as they crisscross America's highways en route to competitions, major horse shows and to make appearances at fairs and expositions. In 2007, more than 5 million people at the Ohio, Indiana, Iowa, Illinois, New York, Georgia and North Carolina State Fairs were thrilled by the Percheron's size, beauty and strength. **Wouldn't you like to hitch your brand to their wagon? Call us about a sponsorship and renaming the team with your company or product's name.**

These magnificent creatures are available for appearances:

Festivals
Fairs
Expos
